IVF-06A | DUAL SPERM SOURCE / INTENDED FATHER ADDENDUM

Intended Father A:	_____	Intended Father B:	_____
Egg Donor:	_____	Associated Base Form:	IVF-06 ☐ Other: _____

DUAL SPERM SOURCE SERVICES / FINANCIAL ADDENDUM

INTENDED FATHER / SPERM-SOURCE SERVICES	IVF LABORATORY / EMBRYO TRACKING
• FDA laboratory testing for each intended father/sperm source • Male FDA physical examination for each intended father, when required • Sperm collection and cryopreservation for each intended father, when performed	• Separate identification of each sperm source • Donor oocytes allocated into separately identified fertilization cohorts according to the treatment plan • Each cohort fertilized with one intended father's sperm • Embryos tracked and documented by sperm source
THIS ADDENDUM DOES NOT REPLACE IVF-06	BASE DONOR / EMBRYO-CREATION FEES REMAIN PER IVF-06

SOURCE-SPECIFIC FEES

Service	Fee Per Intended Father	Select / Qty
FDA testing / Male physical / Sperm cryopreservation	\$725 / \$150 / \$300	A ☐ B ☐ Both ☐

ESTIMATED ADDENDUM TOTAL IF BOTH INTENDED FATHERS REQUIRE ALL THREE SERVICES: \$2,350 | Storage, if applicable, is separate.**PAYMENT TERMS:** Source-specific fees are due before the applicable screening, sperm collection, or laboratory service is performed. A 3% transaction fee applies to credit-card payments. To avoid this fee, pay by debit card or cash.**IMPORTANT CLARIFICATIONS / COSTS NOT INCLUDED**

Base IVF-06 Package	Egg-donor retrieval, embryo creation, donor medications, anesthesia, PGT, third-party coordination, and other IVF-06 charges are governed by the separate IVF-06 financial agreement.
Gestational Carrier / Transfer	Gestational-carrier evaluation, preparation, monitoring, and frozen embryo transfer are not included. When applicable, use IVF-07 under a separate financial agreement.
FDA / Source-Specific Fees	FDA laboratory testing is \$725 per applicable intended father/sperm source. Male FDA physical examination is \$150 per applicable intended father. These fees are charged separately for each source.
Sperm Cryopreservation	Sperm collection/cryopreservation is \$300 per intended father when performed. Each specimen remains separately identified and is not combined with the other intended father's specimen.
Storage	Storage, when required, is billed separately under the applicable storage agreement. Current annual storage is \$800.

THIS ADDENDUM IS USED WHEN TWO INTENDED FATHERS / TWO SPERM SOURCES ARE PARTICIPATING IN THE SAME EGG-DONOR EMBRYO-CREATION PLAN. Sperm sources are maintained separately. Donor oocytes are divided into separately identified fertilization cohorts according to the treatment plan; sperm specimens are not mixed together. This form supplements, and does not replace, the applicable IVF-06 donor/embryo-creation agreement and IVF-07 GC agreement.
